Dear Mr. Jordan:

Thank you for your letter dated March 12, 1982, concerning hazardous waste compliance issues at the Brown Shoe Company, St. Louis, Missouri, facility.

In response to the issues raised in your letter and as discussed with Mr. LaMont during our March 29, 1982 telephone conversation, I suggest that you write a letter to Mr. Robert L. Morby, Chief, Waste Management Branch, (WMBR) U.S. Environmental Protection Agency (EPA) and request that the Chouteau Avenue facility be re-classified as a closed facility and also that the address for the transporters identification number be changed from 4327 Gustine Avenue, St. Louis to your Benton, Missouri location.

My review of the remaining issues indicates that Brown Shoe Company has adequately addressed those deficiencies outlined in our letter of February 22, 1982. The EPA appreciates the cooperation shown by Brown Shoe Company in correcting those deficiencies and hopes that the company will continue to handle this waste in an appropriate manner.

If you have any questions concerning this or any other matter, please call me at 816/374-6248.

Sincerely yours,

David Doyle
